

Women ONLY Beginner's Handgun Class!

GENTLEMEN...is your wife, daughter, mother, girlfriend or co-worker afraid of guns or hesitant to shoot...do you feel responsible to keep them safe but don't know how to help them?

LADIES...are you new to the shooting sport, are you afraid of handguns or do you need some guidance from someone who can relate to your needs?

I am a NRA Certified Instructor and specialize in helping women get over their fear and uncertainty when it comes to firearms. We think differently than men and I have found that instruction from another woman helps to dispel this fear, initiates a healthy respect and shows them how much fun this sport can be!

The Woman Only Beginner's Handgun Class held at Ohio Armament is designed for women who have little to no experience with a handgun. We will focus on safety using NRA's rules for correct handling of a firearm; learn how to safely shoot a handgun and how to properly maintain your handgun.
